

# What You Need to Know About REPORTING

Chapman University | Compliance Week 2021

## Get to know EthicsPoint

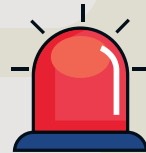

Chapman uses EthicsPoint as one of our tools for addressing misconduct and other concerns at work. EthicsPoint allows us to make this process anonymous and confidential.

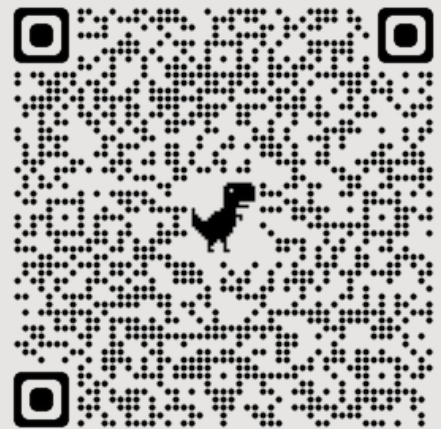

## What do I report?

From fraud to unsafe working environments, there are many different reasons to report. We list a few examples to consider in our [Ethical Concerns Brochure!](#)

## Tips and Myths of Reporting

- All interactions with EthicsPoint are *anonymous* (unless you choose to identify yourself). Calls are not traced or recorded, and EthicsPoint does not maintain any internal connection logs with IP addresses.
- Check in at EthicsPoint using your report key & password to track the investigation from beginning to end or to communicate with the University anonymously during the investigation.

To file a report or learn more, visit [chapman.edu/compliance](http://chapman.edu/compliance). For questions, reach out to us at [compliance@chapman.edu](mailto:compliance@chapman.edu)
