MACI-MAT Master Teacher - Student Teaching Observation and Evaluation Report 2018-19

The Student Teaching Observation and Evaluation Report is based on the California Teaching Performance Expectations (TPE) organized into 6 major domains. Please use the provided evaluation form to assess the teacher candidate's strengths, abilities, and areas for growth under each of the TPEs. Your evaluation is very important and will help determine if the candidate is ready to teach in a California school under the current regulations outlined by AB 1059, SB2042, and 5857.

Master teachers are required to conduct a **minimum of 2** substantive evaluation reports of student teachers, including a formative report (at the mid-point of student teaching) and a summative report (at the end of student teaching). For the evaluations, please use the attached "Student Teaching Observation and Evaluation Report" form.

Detailed "Comments on Evaluation" and "Recommendations" also are required, as they provide specific feedback to student teachers and evidence of support and guidance provided by supervisors to teacher candidates (as required by program accreditation standards).

Phases of performance competency are explained below:

4 = Exceeds Expectations – Candidate exhibits strong command of the teacher performance expectation with an exceptional level of performance. 3 = Meets Expectations – Candidate meets the teacher performance expectation as a novice teacher with an average level of performance. 2 = Below Expectations – Candidate barely meets the teacher performance expectation and needs improvement. 1 = Far Below Expectations – Candidate does not meet the teacher performance expectation and exhibits poor ability in this area.

No Opportunity to Observe – If you were not able to observe the candidate performing this expectation, please select "No Observation." Please do not leave the item blank.
