 11:30am

 Argyros Forum – Room 119AB

Featuring scholars with expertise in Africa, Asia, and Latin America, this panel explores historically and culturally specific forms of feminist praxis that people have employed to engage, confront, reconfigure, and enact social and political change. We reflect on emerging hierarchies not only between the “West” and “non-West,” but also, relations and hierarchies of power within the non-Western. What are some of the ways non-Western women re-imagine and build just and peaceful futures?
